Who are student debt victims?

We're students at 4-year colleges; we're graduates from decades past. We're workers saddled with expensive certificates from for-profit "schools." We're retirees whose social security and disability benefits are garnished to pay off student loans. We're parents, young and old, who have mortgaged our houses and futures to help our children pay their loans.

**Come together to Speak Up, Act Up, Dance
Against Student Loan Debt! Resist Debt!**

Join an afternoon of music, food, discussion, and solidarity. Come together, Speak up, Act up and Dance against Student Loan Debt.

**Together, we owe more than
\$1 trillion in student loan debt.**

Higher education is no longer a ticket to opportunity. It's now an unbreakable chain to debt with ever spiraling interest. Tuition increases yearly, while wages stagnate. How much worse will we let it get?! Occupy Boston and Strike Debt invite you to a collective action to fight student loan debt. You are not a loan! Come join the debt resisters' movement!
